Bandra loved the excitement, loved being in the thick of it all. It had quite forgotten everything but the problems of the moment, the very idea of a vacation, and looking up to see him smiling at her.

"How goes it?" he asked.

"Their eyes held one another."

"Fine."

"Can you handle it?"

"Can you answer it?"

"You look happy," he said.

"I am."

"MAN! THAT'S AN OCEAN WORTH DISCOVERING"

That's what Baboo would say if he returned to the old Pacific today and saw some of the prize-winning beauties out there; and the girls on Mack Bennett's Hollywood set. Of course, when Baboo discovered the Pacific he also discovered some of the most famous ladies who were little more than the shadows from the scenery, but Gail Borel Art has brought back the first of these beauties, and she is now in the city. She is a real beauty and presents her now on the beach and on the screen with just the same old-time charm that she had when she was first seen. ### "WHAT'S THE TIME BY YOUR GOLD WATCH AND CHAIN?"

—You may never have been addressed in this way, but old timers will recall, perhaps, having the remark addressed to them on having addressed it to some friend. Watches used to be large and cumbersome and were worn attached to a heavy gold or silver chain which was displayed conspicuously and from which dangled an emblem, a charm or an ornament of some kind. Some forever in this old style—yep, you know the new fashions in wrist watches and chains and it must be admitted that they are the greatest improvement over the old timepieces.

In one respect, however, the new watches have no advantage over the watches of years ago, they must be kept in proper running order just as did the old time watches of large proportions and when your watch requires attention you desire the work to be done by a

### Lightning Strikes Drigible Akron in Storm at Sea, Huge Airship carries Crew in Depths of Atlantic Ocean

One of Four Survives Dies Shortly After Being Rescued From Waters in Which Giant of Air Crashes Shortly After Midnight  
SHIPS RUSH TO SCENE OF DISASTER

United States Overwhelmed by One of Greatest Air Tragedies in History of World And Greatest in U.S. Navy Annals

REACH HAVEN, N.J., April 4 (AP)—The latest anti-aircraft dirigible 3-3 of the Navy Air Station at Lakehurst, crashed into the sea about 1,000 yards off shore at 1:45 a.m. today.

Two members of the crew, believed to have been alive, were taken from the water by rescue workers in surf boats and in a waiting ambulance were rushed to the Paul Kimball Hospital in Lakewood, 20 miles away.

NEW YORK, April 4 (AP)—The U.S. Akron, the largest ship in the world, crashed in flames at sea yesterday with 77 men.

Ten hours later only four of those men had been found, one of them dead, making this apparently by far the greatest disaster in the whole history of lighter-than-air flight, a history which has been spotted by numerous major tragedies.

The Akron was caught in a violent electrical storm shortly after midnight, 32 miles from the sand dunes of the Jersey Coast in the region of Barnegat.

The Coast Guard cutter at Ashbury Park, N.J., reported receiving S.O.S. signals from the Akron, and the air was filled with static and they were not heard clearly. The German survivors of the Akron were rescued by the U.S. Navy reported to President Roosevelt.

ADAMIRAL MISSING  
Among the missing was Admiral William A. Moffett, Chief of the Navy's Bureau of Aeronautics. Among the other missing was the Akron's commanding officer, also missing. The other rescued were members of the crew, as was the man whose body was recovered.

The Coast Guard destroyer Tucker, after abandoning hope of finding further survivors, started for Brooklyn Navy Yard with the body of the dead man and the survivors. A wireless call was sent ahead to have an ambulance ready for the injured.

The tragedy occurred in the worst of flying weather. Besides the peril of the electric disturbance, visibility was exceptionally poor and the flying circuit was close to sea level.

Communication concerning rescue efforts was hindered by continuing static. Third Naval District Headquarters in New York reported all wireless receivers were "dead" about the Akron and remained out of commission for a considerable period.

LAKEHURST IN MOURNING  
At Lakehurst, N.J., home port of the Akron, at Washington and in other national regions the relative and friends of the missing airman hoped against waning hope that some word of further rescue would come from the stormy sea.

Typical of the attitude of wives and mothers and children of the Akron's crew was that of Mrs. Moffett. "I have every belief that Admiral Moffett is all right," she said hours after the crash.

### BODY OF CREW MEMBER FOUND

President F. D. Roosevelt's Comment on Dirigible's Tragedy

New York, April 4 (AP)—The coast guard destroyer Tucker, bearing two survivors of the dirigible Akron and the body of a fourth member of the crew, landed today at 11:30 a.m. today, bound for Brooklyn Navy Yard.

The Tucker placed Commander John C. MacFarland, of Western Air Corps, at the head of the party. The body of a fourth member of the crew was found at 11:00 a.m. today, off the beach toward the Rock River.

# BATTLE OVER SOVIET TRADE PROHIBITION

"What Else Can Government Do?" Asks Sir John Simon

## ARRESTS IN RUSSIA

Sir John Knows of No Way to Serve Fair Trial for Men

London, Apr. 5 (CP)—A battle fought in the House of Commons today over the government bill to prohibit trade with Russia, has been described by Sir John Simon, Foreign Secretary, as he rose to move second reading of the bill which is regarded as Britain's answer to the Soviet trade embargo.

Immediately Sir John had closed morning session, another bill, the War Office (Amendment) Bill, was introduced. Sir John then returned to the House of Commons.

"The bill is a measure of the British government's attitude towards the Russian situation," Sir John said. "It is a measure of the British government's attitude towards the Russian situation."

# MORE SQUARE YARDS OF CLEANING

...in a package of Old Dutch that is anything else you can buy, because Old Dutch is the only cleanser made of pure "atomite," scientifically recognized as the safest, most efficient and most economical cleaning material. Safest because it doesn't scratch; it is free from harsh, sandy grit found in ordinary cleansers. Most efficient and economical because its flaky, flat-shaped particles cover more surface, go further and do more actual cleaning per penny of cost.

Old Dutch costs less to use because it cleans more square yards of surface, cleans quicker, doesn't clog drains, is odorless and removes odors. And it does so many more cleaning tasks perfectly that it is the only cleanser you need in your home.

**THE TOURISTS**  
 Prospects for the coming holiday season which is already casting its shadow before are not at all dark—indeed they are brighter than for some years.

Belleville has already had a large number of inquiries and reservations for motor tours. This alertness on the part of the tourist industry is recognized by the people of this city who are ready to welcome summer visitors.

The welcome of tourists is not a vain gesture. Money pouring into the millions has been the lifeblood of the city since the border and Belleville districts have received a good share. From the fact that the supply of the tourists is realized in the interest of tourists that the owners of private camps have taken the owners of the hotels have taken to descriptive folders to tell of the attraction of their resorts and the interest of the tourists to be that they are seeking pastures new after years pastures new.

Nearly two hundred millions of money was spent in Canada last year in the trade where it receives the widest circulation. It is estimated that more than thousands of people.

It must be remembered that where a man spends his money is more than ordinary interest. He never fails to take his money with him. He never fails to take his money with him.

**PAEDAGOGIC FILM CENSORSHIP**

Of the 2,163 films passed by the Ontario Board of Film Censors, only 108 were passed as suitable for families to view, the assumption being that the remainder were unsuitable for children.

What reason there is for the assumption that the remainder were unsuitable for children is that the motion pictures are in the hands of school teachers who are capable of influencing the impressionable minds of the children.

AN UNWALLED ROOM

No, do not sigh at these bleak walls you see. The bare, cold hearth, the sullen, sordid room. Faint not to waste your pity's wealth on me.

Or fancy forces that have wrought my doom. Could you but know, I do not dwell within this spot; like you, I turn from it with scorn.

To hear the shepherds' pipes call, clear and thin. Through the pale amber of Elysian dawn. I, too, can wander by the farthest sea. Watch the sands of bright, exotic shores.

On the stormy coasts of Hebrides. Watch mountain breakers as the tempest roars. My wifely lies within an unvalled room. Where all winds blow, all stars of heaven bloom.

## HENRY DENIES MONEY LOAN

### Frank Barber Has Never Owed Premier Money

Toronto, Apr. 6. (C.P.)—Longman's corridors are deserted today. It was a hard week for Mr. Henry. Yesterday he denied charges attributed to Arthur Hawkes, Toronto, to the effect breweries and distilleries had contributed to campaign funds in 1929. Too, the Premier absolved the then Premier Hon. O. Howard Ferguson, of accepting such contribu-

At the same time, Premier Hender denied emphatically "ever loaned money to Frank Barber, engineer connected with the construction of a bridge at Bredan. Barber, during a meeting of public accounts committee, N. O. Hipel (Lia-Soo-Waterloo), had asked George H. Garth, Deputy Minister of Highways, if Barber owed the Prime Minister.

"I can say there is not a little foundation to the suggestion I made me money. My honourable friend should never have made a suggestion," said the Premier.

"I will accept the Premier's statement Barber never owed him money at that time," said Mr. Hipel.

"That time or any other time" retorted the Prime Minister.

Publication of obscene, satirical or blasphemous articles would be prohibited under legislation introduced today by Hon. W. H. Pringle, Attorney-General.

Stress is laid on obscene and immoral articles in certain magazines and papers which have gained circulation in an explanatory note.

The bill and prohibition of those aimed at. The "seditious" referred in the bill is particularly inserted to cover communistic literature.

The Barber Bill, an Act which has been thrown out on numerous occasions, finally received second reading, although private bills cannot be changed; it is considerably different from previous bills.

Definite intimation members of the House would be reduced to 112 to 88 was obtained during day. It is understood Toronto lost three seats, Ottawa one, Hamilton one.

## DISGRUNTLED THROWS BOM

**Damage Not Extensive  
And Work Proceeds  
as Usual**

Chicago, April 8 (AP)—A bomb was exploded at the Prime Brewery one of the largest in the country west, early today. A preliminary survey indicated the only damage done was to an iron gate. Matthew Ernst, chief engineer, and member of the company's board of Directors, said he believed the bombing was the work of disgruntled jobbers, whose requests for small lots of beer had been injected in favor of larger orders.

and found that in addition to the damage to the door a score of windows in the block-long brewery had been broken. Windows in other nearby manufacturing plants were also shattered, so powerful was the force of the explosion.

The brewery's force was on duty at the time attempting to speed up deliveries of the new 2.2 beer.

**WIDOW OF AUTHOR  
DIES IN LONDON**

**Mrs. Edgar Wallace Only Survives  
Husband a Year.**

Wallace, widow of the author, died early today at her London home after a long illness. Mrs. Wallace survived her husband by one year and two months.

Her husband, Wallace, was a well-known American author of mystery and detective stories, plays and screenplays. His most prolific of present-day writers died from pneumonia in Hollywood, California, February 10, 1932. A half year after Mrs. Wallace sailed for England in a race to his bedside, she was notified of his death.

She was the host at Chamberlain and returned to London.

He also was survived by three children, Patricia, Michael and Fenelope.

1 DATE OF EXECUTION  
SET FOR JULY

Found Guilty of Murdering at Least One Child

**Khachaturian, alias, Yachuk,** was a resident of central Yerevan. His last journey today was taken from district hall to the provincial hall at Headquaters following his conviction in the Spring Assizes before Mr. Justice D. D. Yeghiazarian. After the deliberations of the jury early today found him guilty of the murder of one of four infants whose bodies were found today at the home of Mrs. Yachuk. The bodies of the four infants were discovered last November. Named as the father of the infants by Mrs. Yachuk, the other, the man denied knowledge of the crime.

Date of execution was set July 13 at Headquaters hall. Yachuk, charged with the concealment of birth of several "children," was sentenced to the same term at the conclusion of his man's trial.

**FORMER FRENCH HEAD  
INVITED TO ATTEND**

Paris, April 8 (AP)—Premier Edouard Herriot, dominant figure in National and international affairs, has accepted government's invitation to represent France in the world conference assembling in Washington.

He probably will sail on steamship *Le De France*, April 10.

While the announcement of acceptance said it was "virtual" that the French government was confident of

It was understood the high  
genial government party  
hesitated only on account of  
still outstanding divergence of

bor of Deputies majority over war debt payment. The Chamberlain, who supported him on every issue, overthrew Herriot's last December because he demanded the payment be made in gold.

It was expected some way would be found to overcome this difficulty. Norman H. Davis, U. S. ambassador in London, and the States special ambassador, were near the talks with President Roosevelt in Washington with several makers pertaining to forthcoming World Economic Conference in London rather than the debt.

Hydro-Electric Power Commission  
of Ontario

## ANNOUNCEMENT

Free Electric Flat Rate Wa  
for Every Hydro Home i

*To* THE CITIZENS of ONTARIO

The Hydro-Electric Power Commission of Ontario is prepared to pay for the water heater at no charge to the consumer. This means that an electric heater heating element, thermostat and tank insulation and the necessary wiring—will be in Ontario where facilities exist absolutely free of all installation cost to the consumer. All pay for the current he uses at a new low flat rate. This plan provides for the "Water Heaters" only where such electric hot water heaters are not already installed. A limited period of time—the expiry date to be announced later.

In homes where a "Booster" heater may be required in addition to the "Flat Rate" heater, the consumer will pay a nominal monthly charge which will cover the ownership of the heater at the end of a five-year period.

*Why this offer is made to you*

The Hydro Commission submits this offer to the people of Ontario for two reasons:

- To increase consumption of electrical power.
- To set to work as many Ontario citizens as possible.

**UNUSED POWER.** Owing to the present long-continued depression, resulting in the slackening of industry throughout the province and the falling off in the consumption of power by industrial consumers, the Commission possesses power capacity which if not used will be lost. In order to absorb this surplus, the Commission is going to install electric water heaters in all *flavro* houses *free of cost*, believing that mutual benefits will be conferred on (a) the user through free electricity and a year long service superior in availability, convenience and comfort to any other method of water heating; (b) the Commission through the present disposal of its surplus power.

*Task will take time.*

Despite the fact that this plan has been given many months of study and preparation by the Commission it will take time for the factories of the Province to produce. Raw materials must be bought—special tools devised—dies cut—machinery tried established before we can be assured of a steady supply of hesters built to order. We have already secured the utmost co-operation from electrical, mechanical and other trades. Costs of equipment have been worked to a new low level providing at the same time, for employment and a fair return to all those engaged in production.

The Hydro Commission has set itself a task of considerable magnitude. The Hydro homes, industry and employment are given impetus under the plan. The water heaters eventually pays for itself in power consumed. The plan will cost lessening benefits, the first cost of which has not obligated you for one cent. Every whole Province will be benefited, stimulated and enriched.

From time to time the Commission will advertise details of progress. We confidence in co-operation in a plan by which all will profit. Watch for the next announcement. Your own Hydro officials will gladly furnish further information.

**Demand Evacuation of Entire Area as Far as Livan River**

Newspaper reports said today that Manchukuo troops, which have been advancing southward along the great wall of China, today occupied the important Chinnwangtiao seaport.

The previous report had stated Japanese fighting in that section was lessening.

Minister Lamson denied reports that British marines landed at Chinnwangtiao yesterday to protect their interests.

He said that British troops were not there.

Troops of Great Britain and Canada are still present at the port, he said.

Reports from other news sources along the Peiping-Shanghai Railway, passing through Chinnwangtiao, under the 1900 Protocol, in order to protect the foreign concessions, are that the Japanese were falling within the area.

Toronto, April 12.—A resolution of the House in the present Legislature on March 10 of 113-115 that the 9th riding formed by Premier Ferguson in his present proceedings as to the 9th riding—has been announced to the House by the Minister of Lands and Forests, Mr. W. H. McLean, Minister of Lands and Forests.

The resolution setting out the riding boundaries was tabled in the House last night when Mr. Ferguson presented his report. The boundaries are in effect until the next election, but the Minister has made public just much time as the House is in session and the Minister has already been asked by the Opposition to make some statement on the subject.

The old riding of Hastings is to be divided into two ridings, the 9th and the 10th. The 9th riding will include the town of Hastings and the surrounding area, and the 10th riding will include the surrounding area.

## An Open Letter to the Ladies!

Dear Madam:

This is your busy day so will skip most of this letter

The preliminaries compiled week of the morning session, but the report will all through the day.

On Thursday, April 12th, and on Saturday, April 14th, The Model Ladies' Wear greatest sale of Ladies' Dresses, Coats, and Hats will assume a lower price level than ever before. Come by train, come by car, walk if you have. Leave the dishes in the sink, but be here and participate in our wonderful values on these Two Days.

Yours sincerely,

**Investigation Follows an Accident Near Brighton**

THIRTON, April 19.—(Special) The police mystery around the death of James E. Storey, Jr., a 40-year-old St. Louisan, who was killed in a car accident near Brighton, was solved today by the police of his hometown, St. Louis.

The police followed an investigation of an auto accident two miles from Brighton, and found that Storey was at the wheel of the car when it crashed into a tree.

The tests to question were located on the road, and the police found the car opposite the Gruff farm, on the Currying Place road, in the Bay of Queens. It is reported that the police were called to Brighton to question the driver, but when the accident occurred.

### The New Coats for Spring

Show Wide Diversity of Style Choice

—and you'll find that the C.D.S. have selected the most popular and favored models for the spring season. The choice is extensive, and styles in many cases are individual and exclusive. Here are coats for misses, as the tailored polo, the smart tweed with its natty pattern, or the fine tailored coat with its dressy air — all are included in our fine collection, and show rich trim used in many attractive ways. Prices, too, to suit every purse.

## WHEAT BONUS IS SUGGESTED

### Professor Also Advocates a Fixed Price For Grain

RECEIVED (CP)—The suggestion of a fixed price for Canadian wheat is being made by the professor of agriculture at the University of Toronto. The suggestion is made in a paper which will be presented at the annual meeting of the Canadian Wheat Producers' Association, which is being held at the University of Toronto, on April 18 and 19.

The professor, who is also a member of the Canadian Wheat Producers' Association, is Dr. J. H. Macdonald. He is a well-known authority on wheat and has been active in the wheat industry for many years.

Dr. Macdonald's suggestion is that a fixed price be set for Canadian wheat, which would be based on the cost of production. He believes that this would be a fair and reasonable way of dealing with the wheat market.

He also suggests that a bonus be paid to the wheat producer when the price of wheat rises above a certain level. This would be a way of ensuring that the producer is always paid a fair price for his wheat.

Dr. Macdonald's suggestions are being considered by the Canadian Wheat Producers' Association. He believes that they would be a very beneficial way of dealing with the wheat market.

reached here from Sydney. Accompanying a string of six worn camels, and followed by seven bearded, manacled natives, Trooper McKinnon of the Central Australian Mounted returned to Alice Springs after being in the desert of central Australia for nine arduous weeks.

With the returning party were a pair of police trackers who carried two aboriginal heads in kerosene tins, and two native witnesses to the crime. The only clothing of the captives was made of flour bags and twine, given them after their arrest.

The crime came to light last week when a missionary discovered the body of a boy and a man of the Lubra tribe, riddled with spears, 3 miles west of the Alice Springs Station. When Trooper McKinnon set out in early October for his regular patrol of the desolate area, he ca-

Hair-dressing has no longer been an art. The present-day coiffure is designed by the clever specialists, called coiffeurs, who are working on a wave rhythm, the regard for profile and type, the rare woman being able to make the most of the rearrangement of her brain in which she seeks out the skilled woman who knows how to make the most of the hair of the hirsute woman. It is a matter of balance, remains to be seen whether the right coiffure places the head in a position of equilibrium. Also, and the elegant, the wrong one chucks her the back; line, along with dandy-dress.

The short, fat foot-crowded in a shoe, the ponderous leg, the leg in the strap is not according to the standards of foot-beauty, which slightly hinders the gait, the shoe is a little too tight and the heel that is snug will give an air of heaviness, the lack of appearance of ease and the interference with circulation, produces pain in the calf of the leg, causes all manner

Awkward movements of the hands are due often to a rigid wrist, just as awkward movements of the body are caused by stiff joints and muscles that lack resiliency. Do a bit of hand fluster to loosen up the wrist hinges. Hold up the palms of the hands, turn them down quickly, repeat. Massage the hands in circles. Massage wrists with coconut oil.

Touch the lips with glycerine if they are dry and rough. Remove the glycerine gently with absorbent cotton, apply the lipstick, keep the lips stretched in a broad smile so that the application will be smooth and even.

**Relax Facial Muscles; Avoid Wrinkles**

A woman can deny that she is stressed. She has at least a dozen different emotions sometimes more. Emotion that surges round her chest changes her face. A beaming, smiling countenance shows when she is overjoyed to see a dear old friend is a far cry from the meanie mug she puts on when she's angry at a friend who has been a pain.

Stress women right? They are. To bare their NINE, diversions help. Hard feelings make hostile emotions creep into gentle faces. No, women don't frown, pull in their clank her teeth together, or the belligerent spirit can't combat habits of anger. Unpleasant, unfavorable upon the skin, destroy those will serious lines.

## MR. PICOBAE INVESTIGATES LOCAL CONDITIONS

Mr. Pico, having done justice to an extraordinary high dinner at his hotel, proceeded to investigate pipe smoking conditions in the city of London.

"What is the best selling pipe tobacco in this town?" demanded Mr. Pico.

"Well, sir," replied the waiter lowering his voice in a conspiratorial tone, "I'll tell you. I don't smoke anything but cigarettes, myself."

"But Pico is good for making cigarettes, too," quoth Mr. Pico, stoutly.

"Don't I know it?" retorted the waiter. "I'm using it all the time!"

As you know, Mr. Pico, is making a tour of Canada. He'll be in Toronto in a few days. Watch for him. In the meantime get a tin of Pico's tobacco. Try it. Pico is the pick of Canada's Burley Crop, grown in sunny southern Ontario.

—and don't forget you get more tobacco for your money.

PROFITS IN LEAN YEARS

Though many persons think that every business has been running at a loss during the past few years, the actual facts are that such is not the case. Woodrow Wilson, in his famous address to Congress in 1917, said that the United States consumed more than \$1,000,000,000 in 1917 and in not a few cases a profit more than in 1933.

"These concerns are all big advertisers," says the Sentinel, "and they are not alone." The profits in 1932 were better off than in 1931.

SIDELIGHTS

GRAVE AND GAY

I was roughed and stricken utterly.

With mighty sorrow burdening my breast.

I should have home and friends to seek the sea;

The sea could give me rest.

The sea is old, far colder than the shore.

For once I should not want to be a very waste.

With countless voices, song and wail

Wave pressing wave in haste.

Of swarming life the sea was mother then.

And when land's thrusting peaks came forth at last

For tearing myrads climbing to - morn and

day -

For you the restless vast.

All life... it may be... turns in need to me.

When tides of hope are ebbing, faint

As to some primal shiver the worlper.

These currents wash the heart.

If I were torn and care-worried, General

Not cease.

Should leave all old loves to seek the sea.

The sea could give me peace.

SEEDTIME AND HARVEST, snow, rain and sun.

# "MEN: Wouldn't a C.C.-M. be a good investment in a year of economy?"

Letter to Sports Editor

Dear Sir:

I am interested (and so are my work mates), in a pay envelope way, in every sale of a C.C.-M. Bicycle. Every C.C.-M. is worth for a buy-let me get this thought across: I can't think of another product made in Canada which is so useful in day and out in pay and in your own way like a C.C.-M. Bicycle.

"Most likely you could save a bicycle going to work instead of spending several times its price on other transportation. A C.C.-M. saves its cost over and over again and returns a good economy, better health, besides the EXTRA Use you get out of your bike savings and holidays.

"Because I have helped to make C.C.-M. for 33 years I can honestly say that there is a lot of extra quality built into a C.C.-M. Bicycle, and this shows up in the carefree service it renders its owner year after year. You'll appreciate the real economy of an easy-riding, sturdy bicycle that will 'stand the gauntlet' and stay out of the repair shop.

"All I ask is that when buying a bicycle you go into the value of a C.C.-M. thoroughly. You'll recognize good Canadian workmanship in every detail—the value stands right there."

Yours sincerely,  
FRANK STOLTZ,  
C.C.-M. Employee for 33 Years.

"Take a walk—get out in the great yourself to a real holiday," she smiled and agreed, though she had no idea of doing such a thing. The birthday for Rolf would give her more assurance than any cutting could.

Janet put paper and pencil aside, cleared her desk and drew cloth cover over her typewriter. Moment later, wearing the suit she felt best, her coat over her shoulders, she opened the door. "Goodbye until Monday," she smiled.

"Goodbye."

## AT CROSSINGS

The latest news of the bulletin of the Canadian Railway Commission for Canada, on the dangerous practices of motorists, drivers of other vehicles, and pedestrians, is an interesting commentary. "In many cases accidents at highway crossings are due to the negligence of the motorists," the bulletin says. From December 1, 1952, to February 28, 1953, the Canadian Pacific Railway lines showed forty cases where there was danger due to negligence of those using the crossings. The Canadian Pacific Railway cites 78 cases from September 1st, of last year, to the end of the year on western lines and from November 1st to January 31st, on eastern lines.

Reports from all parts of the Dominion include, ranging up to a crossing near St. Catharines as a train was approaching, a signal, running directly in the direction, failure to stop, and the approach of the train running into the side of the caboose of a train travelling ten miles an hour, crashing on the tracks, and on the way from sliding into the path of the train; failure to notice gates until too close to stop, approach to crossings without full control of automobile.

"There was one case," the bulletin says, on foot, having a narrow escape. The train was moving and the motorist, a woman and child, could get across safely, one child slipped between the rails, and the train ran back over the child, the baby rolled out of the baby carriage clear of the track, the carriage being struck.

"These cases are clear enough to explain why motorist drivers should be warned to slow down to a speed of not more than twenty miles an hour crossing railway crossings."

## GOLDEN DAYS AND GOLDEN YEARS

Prime Minister MacDonald has proven himself a diplomat if the world required evidence of that kind—he has spent five days on the trip, making speeches, arranging preparations and a common meeting ground for the World Economic Conference to open in June. The weight of this day, which is the day of the extreme of the acute form of the disease, have been discussed by Mr. MacDonald and Mr. Roosevelt. And something has been gained through no agreement has been reached because of the long conference.

Public men in the United States say the British Prime Minister did not make one error, take on false step. Several statements were made several times the absorption of Mr. MacDonald and Mr. Roosevelt in the study of the issues before them and also the confidence of the people of both countries who are not looking to find fault.

Relations which will follow with French and Canadian representatives naturally play a fine card in the minds of the world. What Mr. MacDonald and Mr. Roosevelt have to say will have no doubt, helped to clarify many points, will simplify the discussions which are to come.

The visit of MacDonald and the trend of the efforts of the President indicate that both have the large mind, as MacDonald so well expressed it, that statesmen of today must have the courage of having faced problems with courage and brought forth constructive proposals for overcoming them. The President's night experience "golden years," slightly, the phrase "golden days" with their infinite possibilities of betterment of conditions and which capital in the eyes of the world "because men like Mr. Roosevelt and Mr. MacDonald have met in the spirit for anything. The President's "golden years" for which the British Premier has been called to the attention of the world for usefulness at the conference.

"If these great aims are achieved"—only will the age to come be a gold era—but the age to come will be a gold era as among the greatest periods in history when men and women, nation and nation, have turned to bring recovery of labor and activity, and faith among the nations.

## HALIFAX AND NOVA SCOTIA

"Port and Province": a monthly publication with the object of the development of the Province of Nova Scotia, is a very interesting booklet. It is the first of its kind in this most eastern province with its interesting history of its life and commerce. Nova Scotia has a long and written real history, they have had no interesting booklet.

The April issue contains interesting material, on a reprint from 1873 when the Minister of Finance of the Dominion, the former Premier of Manitoba, the Hon. W. S. Fielding, was editor of a Halifax paper. This article is a very interesting disaster when the White Star Steamship, "Atlantic" sank on the coast on

April 1st, 1873, with the loss of 760 lives. Another article is "The Cradle of Agriculture and Christianity in Canada." Other interesting stories are "Songs of the Sea," "Settlement in Nova Scotia," "Another feature of the life story of the Towing Giant of a Man," Hon. C. H. Cahoon, Secretary of State for Canada, the article being written by Charles Foster, who is in the Calgary Herald.

## ENGLISH JUNE

(To A. L. C. Scholastic)

By Winifred K. Latta in Queen's College

On such June days did Shakespeare go to school,

Or playing untiring feet

Or the tresses to his master's hair,

Meeting the vagrant countess at a don't

To call him a crabbed, pedantic, dead

lay on a red velvet cushion

And say, "I am not a scholar, hate his book,

And bawdy books his pen;

For I have seen my country's best

Shakespeare with his Stratford's famous men

What did I see? I saw the gabbed town

And rambling on, had speech with court and clown

And the woman and child, and the man

Lower and less;

Watched their youth and Andrew Agamemnon

On the theatre side by

his theatre side to see.

The chaff and a catalog of new

to woodland paths were his feet

And the woman and child, and the man

Lower and less;

Watched their youth and Andrew Agamemnon

On the theatre side by
